Special to the Sentinel. WASHINGTON, Feb. 14 .- "I never saw Representative Randolph Tucker, of Virginia, in such ill humor as I found him in this afternoon," said the venerable statesman, Judge Poland, of Vermont, to your correspondent. "Mr. Tucker is very much provoked," said Judge Poland, "over the objections of Randall and Townshend to passing the report of the Committee on Judiciary to pay John G. Thompson's expenses in the Hallet-Kilbourn damsge suit. He says it is absolutely outrageous, and I agree with him most heartily. Thompson, while Sergeant-at-Arms of a Democratic House, imprisoned Kilbourn. It was on the peremptory order of the House, and if he had not obeyed would have been impeached. After he retired from his office Kilbourn sued him false imprisonment. Three suits followed and three successive judgments were secured-\$100,000, \$60,000 and \$37,000, respectively. The Court scaled it to \$10,000. Thompson expends his own money in defense. His health falls and he is financially wrecked. He can not live long, and now Democratic economists refuse to pay the damages they have wrought. They won't pay the personal expenses of Thompson, nor the judgment, and I believe with Mr. Tucker that he will die with that judgment hang-

juite a feeling has been worked up over the reusal of Randall and Townshend to permit consideration of this matter. They push it away with appropriations, which have the privilege. Meanwhile Thompson is here upon his own expense, working for a reimbursement of his expenditures. He looks very wan and weak, and it s evident that unless he is paid pretty soon he never will be paid. The matter would not be settied with an administrator, and it may be Congress is waiting for him to die.

The Judge Advocate asked the Court to adjourn till Monday, stating that he had hoped to finish the introduction of testimony to-day, but Bateman, who, he said, is a material witness in the case, has been detained at Havana for several days by the storm. He said the revenue cutter Dix was sent to Havana, by the direction of the Secretary of the Treasury, to bring Bateman to Famps, but he (the Judge Advocate) had learned that it has been storm-bound at Havans, but is now on the way to Tampa. He said he boned to get the witness here by Monday. Mr Boutwell objected to the proposition of the Judge Advocate to delay the proceedings to await the arrival of this witness. He attacked the policy of the prosecution in this case, with regard to the introduction of testimony. General Swaim, had not been furnished list of the witnesses who were to be called against him, and when the names of the witnesses were asked for in court the other day the Judge Advocate, in giving them. omitted to give the name of Bateman. Notes Regarding the Soudan. London, Feb. 14.—It is now regarded as certain that an attack on Metemneh by the British will be made to-morrow. News of the result of the attack is expected at Kerti on Tuesday. Lord Wolseley's disposal of the forces at Gubat under the command of Colonel Butler depends

upon the result of to morrow's assault. General Graham departs for Suakim on the 18th. He will be left the fullest option as to the time to be occupied by the expedition in reaching Berber. It is stated, however, that General Grahan intends to make a forced march at the way to Berber from Suakim. If he cheditors Osman Digma and defeats him, General traham believes he can reach Berber within tenty days. Parliamentary Probabilities. LONDON, Feb. 14,-At the approaching session of Parliament the political conflict against the present Government will open on the presentation of the Government's demand for a vote of dition. at the Tombs-The Case Adjourned to Next Saturday.

NEW YORK, Feb. 14.-The examination in the Short-Phelan case began to-day by Justice Patterson at the Tombs. The court was filled by spectators. Captain Phelan's arm still hung in a sling. The Police Sergeant took charge of the Captain's revolver, which Phelan carried in his pocket. Short came in later accompanied by his counsel. He looked a trifle pale. The proseculive in Kanses City. On the 9th of January I was sitting in O'Donovan Rossa's office with my left side to the table and my back to the door. Richard Short came in with a long knife in his hand and said, "Now I have got you, and then he plunged the knife into my breast. He then pulled it out and stuck it into my neck. I tried to get away from him by running around the table, but he managed to strike me three times. Two men, who were in the room. ran out and tried to escape. I got out at length and made my way to the street, I bacame acquainted with Short last July.' On cross examination Phelan said: "I have resided in Kansas City twenty eight years, with the exception of the time I was in the army, and the three years in lived in Washington. I took a three-months trip abroad in 1883. I visited Ire-land England and Wales. I landed at Queenstown, and from there I went to Cork.
I did not meet any person I knew

elther of these places. I never was in the employ of the British Government. I never made the acquaintance of any government officers while abroad. I had a conversation with a British detective, but I didn't know he was a British detective until after he left my hotel. At this point the counsel for the prosecution objected to the scope of the cross examination, and suggested it be confined only to the assault on Foelan. The Court decided the examination must be confined to the evidence of the defense of wit-The cross-examination continued. He said, I came to New York last January for two purposes, one to visit my sister, Mrs. Levy, at Northampton, Mass, and to explain to certain persons an article in the "Kansas City Journal, I had a talk with Kearney about the article, and my purpose in coming here. He had told me the down to the office were angry with me for talking to reporters in the way the article represented I did. He also said something about an article in O'Donovan Rossa's paper. I told him no man could publish a lie without my bringing him to an account for it. When I went down to Rossa's office I had my little boy's revolver with me. I placed it in my overcoat pocket. I don't know whether it was leaded or not. I have been arrested twice in Kansas City-once for tearing down, on St. Patrick's Day, a picture in a store representing Irishmen as apes, and the second time for carrying concealed weapons. I was charged once with stabbing a man named Trout Norton. I did not boast about this affair or say I would to it again if anybody insulted me. The article in the Kansas City Journal did not call me an informer; it said I gave the information that dynamite was concealed in the Queen. I gave that information, and would do it again under similar circumstances. It is true to a certain extent that an English detective got into my confidence. I told him my name and where came from and where I was going. The reason used Kearney's name and told what he had said he had done in England.

and done was because he openly boasted of what The defense then asked an adjournment until Saturday next and the request was granted. Cap-tain Phelen afterward denounced the adjournment as unjust. He said it cost him loss of time

and money. Voorhees and Cobb's Visit to Cleveland-

Colored Educational Conference. NEW ORLEANS, Feb. 14.-The educational conference of colored commissioners hold sessions every evening. Professor H. E. Brown, from Oberiin College, Ohio, in an address spoke of the industrial schools for white youths at Chicago and elsewhere, which were endowed handsomely. He did not see why all the great schools for skilled labor should be in the North, for that section did not contain all the water-power or all the m inerals. He thought such schools should be established in the South for the benefit of white and black. Industrial schools ought to be estabished because the resources of the South have never been developed. Only the coarser and cheaper kinds of cloth were made in the South. Instead of pig iron, the South eught to be making locomotives. M. W. Gibbs, of Arkansas, spoke earnestly and eloquently in favor of the movement to establish industrial schools for the colored youth. He claimed that the prejudices of this section militated against the black bey, who was excluded from the workshops for years.

LAWRENCE, Kas , Feb. 14 .- There was an attempt made yesterday by three tramps to wreck the east-bound Santa Fe passenger train. The party boarded the train at Topeka, and refused to pay their fare. As there were no stops between Topeks and Lawrence, the conductor did not attempt to put them off, but waited till the train arrived here, when he locked the door of the cars

and demanded their fare or threatened to have them arrested. They opened the window and escaped, and walking down the track, broke the lock on a switch and inrned it. The engine was ditched, but the rest of the train was sayed by the slow space at which it was moving. As it was, a few bruises to the engineer and fireman was all the personal damage done. The wreck was cleared so that trains were moving by noon. Two of the parties have been captured, and the third has been traced to Leavenworth.

Excited Over a Farmer's Discovery of Oil, PARKERSBURG, Feb. 14 .- The quiet and staid people of this borough and vicinity have been thrown into a fever of excitement by the report that oil has been struck on the farm of J. G. Rills, in Sadsbury Township. Mr. | Ellis very recently bought the property from the Blackemore estate. One day last week he found a substance closely resembling oil cozing from the ground and covering the surface of the small stream in his place. He took a quantity of the oily matter to Philadelphia and had an oil expert examine the sample. The result was that Mr. Eitis was informed that he had a very excellent quality of oil. He then placed himself in communication with the Tidewater Oil Company, who sent experts to the farm, and, after a careful examination, made a proposition to lease the land for the term of ten years. The offer was promptly accepted by Mr. Eliis. The same company have leased lands from Andrew Dick, Hon. R. E. Monaghan, ex-Clerk of Courts Edward Paist, E. Blackburn, Robbeing about 1,200 acres.

ert Owen and John Patrick, the entire leased tract Experts say that the reological condition of the locality is much the same as that of the noted oil regions of Bradford. A number of test wells are to be sunk, and some \$15,000 will be expended in developing the new oil region. The lands are n Sadsbury and West Sadsbury, along the line of the Lancaster pike, and but a short distance from the Pennsylvania Railroad. Some six miles away, separated from the oil lands, are the pipes of the Tidewster and Standard Oil Companies, but the experts say that even if there had been a burst in the pipes it could not have produced the large flow of oil developed on the farm of Mr. Ellis
